Attention to detail counts

PADDINGTON-BASED business Attentive Painting and Decorating takes pride in the preparation of work and attention to detail before painting.

The family-owned business run by Robin and Janelle Jenner specialises in Queenslanders and all repaints.

Mrs Jenner said the business had recently expanded to incorporate plastering as well as painting.

"We don't have subcontractors. Robin quotes and later returns to oversee that all the work has been carried out - we have five professional tradesman," she said.

"We are what our name represents, characterised by giving attention to detail (and being) thoughtful of others, considerate, polite and courteous.

"Not only do we always meet these expectations, we provide excellent workmanship and quality materials."

Mr Jenner, a qualified tradesman with a BSA license, has more than 10 years' experience painting in Brisbane.
